OUR GUIDE TO THE PERFECT Christmas Feast

QUICK & EASY RECIPES FOR THE SILLY SEASON!
SURELY IT ISN’T CHRISTMAS ALREADY?!?

Did you blink and all of a sudden, the halls are decked with holly, and Mariah and Michael Buble’s Christmas carols are blasting through the supermarket speakers?

We did too.

Since we’ve regained the ability to meet with friends and socialise, the need to come up with some fresh ideas to plate up for your Christmas gatherings may have you digging deep for some inspiration.

We’ve put together some easy recipes for a quick, healthy, and budget-friendly Christmas; to inspire your cooking and that you can show off to your family and friends, as you gather together and make up for lost time.

We know that everyone’s Christmas looks different, for some it’s all about the seafood, others it might be a roast, or perhaps you’re looking for a more plant focused Christmas. You’ll find enough recipes to feed a small group or a crowd, with lots of options for individually served foods so that you stay COVID safe.

EATING DURING THE FESTIVE SEASON

- Remember that Christmas and the festive period is a marathon, not a sprint. If you’ve spent the last month or two picnicking your way through the weekends *(we’ll just leave this here)*, aim to fill your plate with a mix of vegetables, proteins such as chicken, pork, tofu and legumes and some carbohydrates such as breads, pasta and rice, to keep you full.

- Start with small portions of each of the different dishes, you can always go back for more.

- Listen to your appetite and hunger and stop when you’re full.

- Make sure to drink enough water, especially if you choose to drink alcohol.

- A little indulgence over the holidays is perfectly ok. A balanced way of eating is about what you do most of the time.
Tips for Safe Catering

Sometimes breakfast runs into lunch, runs into dinner and you’ve forgotten to pack away the prawn salad, or you’re happy with everyone grazing away at the cheese and dips that you put out at 11. However, no one needs to spend their Christmas in the bathroom.

Keep track of how long your food is sitting in the risky temperature zone and choose whether to store it, or bin it to save everyone the belly ache.

You can follow our food safety tips here.

If you’re on the road, make sure to take an esky or a cooler bag with ice bricks to keep everything chilled until you’re ready to serve.

Wash your hands when you’re preparing food for your friends and family, and before you eat. Also keep hand sanitiser close by for everyone to use before they start serving themselves.

Provide everyone with their own plate, and cutlery and use stickers to help people keep track of their glass.
